ROLL OF HONOUR

[illegible]

The Council, having been invited to give evidence before the Coal Commission on the effect of the increased price of fuel on industries, has appointed a committee to investigate the matter. The Council earnestly hope that manufacturers and others whose businesses are affected by the high price of fuel will be able to make their views known to the Council.

A letter was read from the Dublin Coal Merchants' Association, enclosing copy of correspondence between that Association and the Controller of Coal, in which attention was directed to the urgent need in the interests of manufacturers and consumers in Ireland that every effort should be made to reduce the cost of coal as soon as possible. This matter was referred to the sub-committee.

A letter was read from the Dublin Coal Merchants' Association complaining about the great quantities of coal during its transit on railways, and suggesting that the Chamber take action to prevent a continuance of this loss. This matter was referred to the Traffic and Transport Committee.

The following resolution was unanimously adopted:—
The Council of the Dublin Chamber of Commerce with warm approval the intention of the Government to submit a bill to Parliament applying Proportional Representation to the election of local authorities. The Council are of the opinion that the bill may be expedited through Parliament as to admit of the application of the principle in the elections taking place next June.
The Council had before them the bill to establish a Ministry of Ways and Communications.

A letter was read from the Secretary of the General Post Office intimating that the suggestion put forward by this Chamber, whereby the delivery of letters to the business houses in the Thomas street area might be expedited, was a laudable intention, and that he hoped, it would be carried out.

The Council noted that the annual meeting of the Association of Chambers of Commerce will be held on the 15th and 16th April at the Connaught Rooms, London. It was left in the hands of the Trade and Commerce Committee to appoint delegates.

**CONDITIONS IN DUBLIN
TAILORING TRADE.**

Messrs. Henry Foran and Dermot J. Stewart,
Joint Secretaries of the Dublin branch of the

joint Secretaries of the Dublin branch of the Irish Tailors' and Tailoresses Union, writing in reference to the letter of Mr. J. Kell, Secretary of the Dublin Master Tailors' Association, published in our issue of the 7th inst., regarding the conditions obtaining in the working system of tailoring in Dublin, state that only a few members of the Master Tailors' Association do not employ out-workers, and that the great majority of the members of the Association do employ out-workers.

association do not employ out-workers, and that a great proportion of the clothes worn by the public are produced under the conditions which the employ  s complain. The latter adds: "If our contention as to the reason for master tailors and clothiers employing out-workers—viz., the cost of production being cheaper—is denied by the employers, then why not bring those workers into the own workshops and under their supervision?"

In conclusion, they refer to Mr. Kelly's statement that all employers are compelled by law to fill Form 44 for the Corporation, and that the public can rely on the inspectors seeing that proper conditions prevail, and they assured Mr. Kelly if the master tailors have ever improved from their out-workers or satisfied themselves that the inspectors did visit those places.
